

Convo Academy: Kids' HTML Coding Guide

Convo Academy: Kids' HTML Coding Guide

Author: Thabang Mosoana  Subtitle:
Learn HTML with Fun Lessons, Simple
Examples & an Online IDE!

How to Use This Book

Welcome to Convo Academy!  This book works together with our online coding IDE. Here's how to use it:

 Open the IDE – See a big text box for code, a ► Run button, and a preview window.

 Read a lesson – Start at Lesson 1 and follow the steps.

 Type the code yourself – Don't just read it; try it!

► Click Run – See your code come alive instantly.

 Practice – Change words, colors, and layouts.

 Listen to Audio Lessons – Play the matching audio in the IDE.

Lessons

Lesson 1: Welcome & What is an IDE?

Hello!  Welcome to Convo Academy. An IDE is your coding playground  – where you write and run code to see magic happen! You'll find:

A code box 

A ► Run button

A preview window 🪞

Let's code! 🎉

2 Lesson 2: Writing Your First Code

Start with `<html>`, `<body>`, and `<h1>`.

💡 Example:

```
<h1>Hello, world!</h1>
```

Click ► Run and see it appear! 🖱️

3 Lesson 3: Important HTML Tags

📁 `<html>` – wraps the page

🧠 `<head>` – page info

🏷️ `<title>` – page name

📄 `<body>` – page content

🔤 `<h1>–<h6>` – headings

✍️ `<p>` – paragraphs

4 Lesson 4: Tips for Learning to Code

💪 Mistakes = progress! 🎧 Use audio + text lessons ⚡ Keep experimenting ✨ Practice makes you a coding hero!

5 Lesson 5: What's Next?

🎨 CSS – colors, fonts, layouts

⚡ JavaScript – interactions & fun!

📖 Glossary

HTML – Code for webpages
Tag – Word in < > for instructions
IDE – Where you code + run
CSS – Style your webpage
JavaScript – Add interactivity
